Fact: Social media is the only marketing medium that can reach 1,000 people for less than \$10 (on average).

 - Demographics, psychographics, risk tolerance, decisionmaking style, purchase behavior, and the "game" they play.
 - Tells you whom not to price for.

Pricing Right

- The right person does the pricing
- The pricing is consistent
- The pricing is not complex
- The pricing system deals with returns, discounts, special deals and stock up rates in an organized way
